

**Teen Board and Teen Ambassador  
Program Expectations  
2023 – 2024**

The Norton Children's Hospital Foundation Teen Board and Teen Ambassador Programs are fun organizations that met to share ideas and help the kids at Norton Children's Hospital through fundraising, events, volunteering and special projects. While the programs both work to benefit Norton Children's Hospital, they each have their own programming, requirements and expectations.

If you are a rising 9<sup>th</sup> or 10<sup>th</sup> grader, the Teen Ambassadors is a perfect way for you to start your involvement with Norton Children's. This program includes volunteer opportunities at popular Norton Children's Hospital Foundation events and encourages individual impact through fundraising. Teen Ambassadors is a great stepping stone to becoming a Teen Board member if desired.

Rising 11<sup>th</sup> and 12<sup>th</sup> graders have the choice to continue or begin involvement with the Teen Ambassadors or choose to increase their commitment level and impact by becoming a Norton Children's Hospital Teen Board member. Board Members meet monthly to learn more about roles within and those that support Norton Children's Hospital and participate in various personal development programming. Additionally, the Teen Board has volunteer opportunities and fundraising requirements that support the Norton Children's Hospital Foundation.

Below are the requirements and expectations for each program. If you have any questions, please reach out to Toree Parrish at 502-420-4283.

**Teen Ambassador Expectations**

- Rising 9<sup>th</sup> – 12<sup>th</sup> grade students in the Louisville or Southern Indiana region.
- Attend a mandatory orientation session in August.
