

When people take an active role in their health care, research shows they fare better, both in satisfaction and in improving their health. It is important to be an advocate in the type of health care you receive. In this report, you will find an overview of select services and procedures provided by Norton Healthcare. We have highlighted measures that should be important to you as a health care consumer. Experience, expertise and quality are key components to consider when selecting the care you need.

All volume data reflects 2024 performance.

Pediatrics

Norton Children's Hospital is Kentucky's only full-service, free-standing pediatric care facility dedicated exclusively to caring for children. They are the largest neonatal provider in Kentucky. Their Level IV NICU (highest level of care available) and Level 1 Pediatric Trauma Center (highest level of care available) are one of only two in the state of Kentucky. Norton Children's is ranked in the top 50 children's hospitals for Pediatric Diabetes & Endocrinology and Pediatric Urology.

In addition to the hospital care, Norton Children's Medical Group employs providers of over 33 specialties throughout Louisville and surrounding communities.
