

Your Impact: Norton Children's Hospital

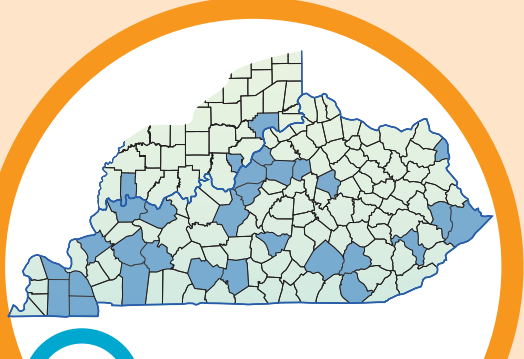

Children have always been at the heart of what we do.

For more than a century, Norton Children's Hospital has cared for the children of the commonwealth of Kentucky, Southern Indiana and beyond. As the need for expert pediatric care has grown, so too has the specialized care Norton Children's Hospital provides.

Norton Children's Hospital remains steadfast in our advocacy for the health and well-being of all children and in our commitment to provide that care regardless of ability to pay. We are able to maintain this mission thanks to your selflessness and generosity. In this report, you will find some of the ways you have had an impact on care for patients and families over the past year.

As the philanthropic arm of Norton Children's Hospital, the Norton Children's Hospital Foundation continues a legacy of generosity by funding equipment, new technologies, clinical research, child advocacy and health education for patients, families, medical staff and the community in support of Norton Children's Hospital and our pediatric services.
